EXAMINER'S COMMENTS

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because in Figure 1 and 2, the structure are not clearly drawn. The lines that represent the bonds are faded away. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Also in pages 5, 13, 15, 17, 20-22, 24, 26-28 of the specification, the drawings of the formulae are not clear.
